

Round Table

eID Interoperability

- **Jan van Arkel (co-chair Porvoo Group)**
- **Kim Cameron (Microsoft)**
- **Lena Kannappan (FuGen Solutions)**
- **Christian Zipfel (Eurosmart)**
- **Jim Dray (NIST)**
- **Tarvi Martens (SK)**
- **Detlef Hühnlein (Secunet)**
- **Bud Bruegger (Grosseto, moderator)**

Who decides on eID IOP? Who needs to talk with whom?

- **Governments (eIDs)**
- **Computing Industry**
 - Importance of OS/Desktop?
 - How do eIDs integrate w/ general Identity mgmt?
- **Smartcard Industry**
 - ISO / CEN
- **Service Providers**
 - Importance of private sector
- **Users/Citizens**

IOP at what level?

- **Smartcard standard**
- **Federated Solution** (Liberty, WS-*, TLS-Fed)
- **Meta-Federation** (meta-system)
- **Factors that pre-determine this level:**
 - Manchester Declaration (Federation in political sense)
 - Heterogeneity of Service Providers
 - other
