

# **PESO**

–

# **Permanent eID Status Observatory**

**Bud P. Bruegger**  
**Comune di Grosseto**

# Porvoo Group Country Updates

- **eID Status Updates:**
  - Regular: **only Porvoo Group**
  - Various one-time snap shots
- **Challenges for Porvoo Country Updates:**
  - Increasing number of countries
  - Increasing number of fields
    - **Difficult to cover all in presentations**
    - **Difficult to keep overview** (word table)

# PESO – Proposed Modernization of Porvoo Country Updates

- **Word table >> DBMS with Web interface**
- **Every country responsible for directly updating their own data**
- **Porvoo Meetings:**
  - Used as reminder to update
  - Single presentation with summaries / comparisons / overview
    - Charts, graphs, maps, derived tables
  - Unload indiv. Presentations
    - focus on significant news

- **Update**
  - Web form per country, per topic (mult. persons)
- **Query**
  - Select: countries, topics, format (HTML, CSV, ..)
  - Future: graphs, charts, maps
- **Update Status**
  - Visualize how up-to-date the data is
- **Definition of Fields and Topics**
  - Add fields, assign fields to Topics

- **Grosseto: first prototype (open source)**
- **Demo** (by developer Fabrizio Felici)
- **If you like it:**
  - Resolution
  - Review fields / topic areas
  - Regularly update

# PESO – a Showcase of eID IOP the “Small Scale Pilot”

- **Data update is security critical**
  - we need eIDs
  - we need IOP
- **Open Source eID IOP Demonstrator..**
  - In operational use in Grosseto
  - eIDs from IT, BE, EE, FI, ES, (add others)
- **.. + TLS-Federation**
  - German ECC, Austrian ACC, .., username/pwd
